Fiscal Year 2005 Statistical Update to the June 2005 Recommended Sentence Report

October 14, 2005

Fiscal Year 2005 Statistical Update to the June 2005 Recommended Sentence Report

The tables and charts using the Department of Corrections data that were included in the study of sentencing disparity (pages 54 to 65) have been updated to fiscal year 2005 (July 2004 to June 2005).

The tables are also available in an Excel spreadsheet from the Missouri Sentencing Advisory Commission website (<http://www.mosac.mo.gov/>) under the Reports and Studies section. Also available as an Excel spreadsheet are the average sentencing statistics that were used to indicate offense severity.

Please refer to the report for an explanation of the statistics. Note, for the tables on prison sentences, life sentences are included and computed at 30 years.

Any additional data requests can be made through Kim Green at Missouri Sentencing Advisory Commission or through Missouri Department Of Corrections, Research and Evaluation Unit.
